**ENJOY MUSIC EVERYWHERE
AUDIO YOU CAN HEAR BUT NOT SEE**

Plaster-in invisible speakers

BEAUTIFUL AUDIO IN BEAUTIFUL SPACES

Uplifting, relaxing, comforting, shocking. Music is all of these things and more. Great music will improve any room in your home.

We can implement a totally invisible audio solution anywhere in your home to deliver wonderful sound without any visual impact.

Use invisible audio to enhance your home with a musical solution the whole family can enjoy without them even knowing it is there.

CAN I REALLY DO THIS?

We have solutions to suit all requirements; ranging from a small stereo background music system to a fully immersive cinema system.

All component parts are completely hidden, the speakers themselves are seamlessly integrated into the interior and any other connected hardware is installed out of sight.

Invisible plaster-in speaker and subwoofer

WHAT'S INCLUDED?

Our invisible sound installations are always meticulously installed and can include:

- Artwork speakers
- Plaster-in speakers and subwoofers
- Glass, wood, metal or stone mounted hidden speakers
- Audio processing and amplification
- Source connection including wireless or hardwired streaming devices
- Easy to use smart control system (new or an extension of existing)

THE PROCESS

We have done everything that we can to make the process of delivering your invisible audio system as easy as possible.

Once we have established your requirements we will create a full design and budget for your approval. From there we will manage all the required trades and be your single point of contact for the duration of the project.

THE NEXT MOVE

Please contact us to discuss how we can create your ideal invisible audio solution. We can integrate these into new build or existing homes.

Your initial consultation is free, without obligation and can be done via video call to maintain social distancing.

We understand that you will have questions on products and process and we will do our very best to answer all of those for you and to make delivering your invisible sound solution as seamless as possible.
